

POTTERS' NAMES AND MARKS, ON PSEUDO-SAMIAN WARE FOUND IN KENT.

BY GEORGE PAYNE F.L.S., F.S.A.

THE following list has been compiled, in as complete a manner as it was possible from the resources at the writer's command, in the hope that it may be useful for purposes of comparison with other lists already published. If similar lists were forthcoming from every county in England, it would materially extend our knowledge of these interesting memorials, and when compared with the Continental lists, would prove still more conclusively that the whole of the Samian or *pseudo*-Samian ware, which abounds in our public and private collections, was imported into this country. It is unnecessary to dilate upon this theory, as it has been so ably treated by Mr. Roach Smith, F.S.A.* The Samian ware in the Charles Museum, at Maidstone, was possibly not all found in Kent; but as it is preserved in this county, it was thought well to insert all the potters' names that appear upon it.
