B4-2: TALL NARROW PLAIN FINE EVERTED-RI.M JARS

These are thin and finely potted, and placed apart here because they do not appear completely native and may be the product of continental influence.

1 Holborough [248], [1031]. R 1B •
2 Berkhamsted, Dellfield, burial II, + brooch. R 1B+ ○

Notes
Probably a conquest period type, with the pale red surfaces that imitate TR. The Kent site may be late because it had an El -1 cup, late and rare in Kent; Berkhamsted has a brooch that may also be conquest period.
B4-2: tall narrow plain fine everted-rim jars.
