

Archaeologia Cantiana On-line Index

GENERAL INDEX TO VOLUMES CXXI 2000 (121) to CXXX (130)

Letter P

[Back to Index Introduction](#)

This index covers volumes 121–130 inclusive (2001–2010) of Archaeologia Cantiana. It includes all significant persons, places and subjects.

Volume numbers are shown in **bold** type and illustrations are denoted by page numbers in italic type or by (illus.) where figures occur throughout the text. The letter n after a page number indicates that the reference will be found in a footnote.

Alphabetisation is word by word. Women are indexed by their maiden name, where known, with cross references from any married name(s).

All places within historic Kent are included and are arranged by civil parish. Places that fall within Greater London are to be found listed under their own name i.e. Eltham etc. Places outside Kent that play a significant part in the text are followed by their post 1974 county. Place names with two elements (e.g. East Peckham, Upper Hardres) will be found indexed under their full place name.

This cumulative index was compiled by Mr Ted Connell.
