~~Cantiana, containing 8673 pages, that is to say, for every ten shillings of annual subscription each original member has received 255 pages of Transactions, over and above other privileges of membership.~~

~~When referring to the General Index it may be useful to remember that the Roman method of expressing the number 50, by means of the letter "L," will sometimes lead to confusion, as in type the Arabic number 1 closely resembles the Roman letter "L." If the item referred to is not found on page "1," reference should at once be made to page "L."~~

~~The following list of "Corrigenda" is also needed for certain entries in the General Index.~~
